FOREWORD

The Kentucky Constitution requires each house of the General Assembly to keep a journal as a public accounting of daily legislative activity. It is the official record of action by the General Assembly.

The *Kentucky Revised Statutes* require the Legislative Research Commission to compare, edit, correct, and publish the journals of each chamber. This is the *House Journal* for the Regular Session of 2000.

The texts of simple and concurrent resolutions appear on first reading or adoption. Appendices contain a list of elected representatives, tables of actions on bills and resolutions, roll call votes, the budget memorandum, and a subject index.

Wilda Bond, Kathy Green, and Stacy Smither prepared the *House Journal* for the 2000 Regular Session. The edited copy and appendices in this volume reflect the cooperative efforts of the LRC Staff.

BUDGET MODIFICATION REPORT

Court Operations and Administration

The Chief Justice shall establish rules of procedure on matters relating to the design, financing, and construction of court facilities. The Administrative Office of the Courts shall oversee the design, financing, and construction of court facilities. Capital costs, for the purpose of computing the maximum annual use allowance, shall not exceed the project scope as authorized by the General Assembly in this judicial branch budget unless increased and approved through the procedures outlined below.

The Administrative Office of the Courts shall assess the need for court facilities construction or renovation throughout the Commonwealth, develop a project program for the construction or renovation of court facilities that the Administrative Office of the Courts determines to be most in need of construction or renovation. Based on a needs assessment, the Administrative Office of the Courts shall develop a prioritized list of proposed court facilities projects and submit the list to the Chief Justice for approval and to the Court Facilities Standards Committee for informational purposes only. Upon approval by the Chief Justice, the Administrative Office of the Courts shall submit the prioritized list to the Capital Planning Advisory Board, by April 15 of 2001, in accordance with KRS 7A.120.

The Administrative Office of the Courts shall develop and maintain uniform contracts to be used by local units of government when procuring architectural, construction, financial, or other services relating to court facilities projects authorized by the General Assembly. Each county with a court project authorized by the 2000 General Assembly shall enter into a written memorandum of agreement with the Administrative Office of the Courts. Before the Administrative Office of the Courts submits its next budget request for court projects under KRS 48.050, each local unit of government that is expected to participate in financing a requested court project shall enter into a written memorandum of agreement with the Administrative Office of the Courts. The agreements shall be developed by the Administrative Office of the Courts, and shall specify the rights, duties, and obligations of the local unit of government and the Administrative Office of the Courts relating to the project, and shall be contingent upon the project's authorization by the General Assembly.

No contract, and no modification to any contract, relating to the design, financing, or construction of court facilities projects authorized by the General Assembly shall be executed unless first reviewed and approved by the Administrative Office of the Courts. All court facilities projects, beginning with those authorized by the 2000 General Assembly, shall comply with the Kentucky standards for court facilities to be established by the Chief Justice and the Administrative Office of the Courts.

The use allowance in the judicial branch budget recommendation submitted under KRS 48.100 shall be determined as if bonds will be issued for a term of twenty (20) years at the prevailing market rate, computed from the estimated date that the Court of Justice will occupy the facility. If the market rate for the bonds assumed in the budget recommendation, including that in the recommendation for FY 2001-2002, has increased when the bonds are to be sold, the director of the Administrative Office of the Courts may approve an extension in the bond term, up to a total of twenty-five (25) years, but only as necessary to keep the annual use allowance within the budgeted amount. All bonds issued by any local unit of government for court facilities projects shall be limited to the term approved by the Administrative Office of the Courts.

Before approving any bond issue for a term exceeding twenty-five (25) years, the director of the Administrative Office of the Courts shall submit a proposal for the extended term to the Interim Joint Committee on Appropriations and Revenue and the Capital Projects and Bond Oversight Committee. The proposal shall include a statement of the necessity for the extended bond term and the impact of the extended term on the project's budgeted scope and authorized annual use allowance. Within thirty (30) days after receiving a proposal to extend a bond term beyond twenty-five (25) years, the Interim Joint Committee on Appropriations and Revenue and the Capital Projects and Bond Oversight Committee shall either approve or disapprove the proposal and shall then promptly notify the director of the Administrative Office of the Courts. If either committee disapproves the proposal, the director of the Administrative Office of the Courts shall take one (1) of the following actions and shall notify the committee of its decision in writing within thirty (30) days:

(a) Disapprove and take no further action on the proposal;
(b) Revise the proposal to comply with the committee's objections; or

The Court of Justice may agree to increase the budgeted scope of a court project or project pool authorized by the General Assembly, and may draw from the local facilities use allowance contingency fund to cover any resulting increase in the budgeted annual use allowance, if and only if:

(a) The appropriate unit of government first submits a proposal for the increase to the Court Facilities Standards Committee, and the Court Facilities Standards Committee approves the increase;

(b) The annual use allowance for the project or project pool, adjusted for the proposed increase in scope, would not exceed the annual use allowance specified for that project or project pool in the multiyear use allowance schedule set out in the judicial branch budget bill or memorandum by more than fifteen percent (15%);

Before the Court of Justice gives final approval to an increase in the budgeted scope of an authorized project or project pool listed in a judicial branch budget bill which would result in an increased use allowance, the director of the Administrative Office of the Courts shall submit a proposal for the increase to the Capital Projects and Bond Oversight Committee at least fourteen (14) days prior to the committee meeting. Within thirty (30) days after receiving a proposal to increase the use allowance, the Capital Projects and Bond Oversight Committee shall either approve or disapprove the proposal and shall then promptly notify the director of the Administrative office of the Courts of its decision. If the Capital Projects and Bond Oversight Committee disapproves the proposal, the director of the Administrative Office of the Courts shall take one (1) of the following actions and shall notify the committee of its decision in writing within thirty (30) days of receiving the committee's notice of disapproval:

(a) Revise the proposal to comply with the committee's objections;

(b) Cancel and take no further action on the proposal; or

(c) Determine to implement the proposal over the committee's objection.

The Administrative Office of the Courts shall report to the Capital Projects and Bond Oversight Committee within thirty (30) days of any action taken by the Court of Justice to approve a scope increase of a project within a pool which would increase the use allowance for that project. The Capital Projects and Bond Oversight Committee shall maintain records of proposals, findings, decisions, and actions taken under this section. When appropriate, the committee shall provide this information to other legislative committees or to the General Assembly. The Administrative Office of the Courts shall provide to the Capital Projects and Bond Oversight Committee, at the committee's January, April, July, and October regular meetings, a status report on the progress of all incomplete court facilities projects.
On August 1 of each year, the Administrative Office of the Courts shall prepare a financial report on the court facility use allowance contingency fund for the fiscal year ending on June 30 of that year. The report shall include, with explanations, allotments, expenditures, encumbrances, and the available balance.

Upon request of the Administrative Office of the Courts, the Department for Local Government shall evaluate the financial condition of any local unit of government selected to participate in a court facilities construction or renovation project, and shall certify to the Administrative Office of the Courts the local unit of government's ability to participate in the project.

Local Facilities Fund

The House includes Part I, Operating Budget language provision that directs: The Christian County Courthouse project shall not be expanded in project scope and shall not receive any funds in excess of $764,900 annual use allowance as authorized by the 1998 General Assembly.

SENATE REPORT
The Senate concurs with the House with the following changes:

Additional General Fund support totaling $581,900 in FY 2000-2001 and $2,035,300 in FY 2001-2002 for 3 new facilities (Muhlenberg County Courthouse, Simpson County Courthouse, and Carter County Courthouse) to reimburse local governments for the court's pro rata share of construction and/or renovation of court facilities (use allowance payments) is not provided.

Financing for the Casey County Courthouse is not provided.

The Senate deletes Part II, Capital Projects Budget, language provision relating to court facilities standards and guidelines and adds Part III, General Provisions, language provisions that direct:

The Chief Justice shall establish rules of procedure on matters relating to the design, financing, and construction of court facilities. The Administrative Office of the Courts shall oversee the design, financing, and construction of court facilities. Capital costs, for the purpose of computing the maximum annual use allowance, shall not exceed the project scope as authorized by the General Assembly in this judicial branch budget unless increased and approved through the procedures outlined below.

The Administrative Office of the Courts shall assess the need for court facilities construction or renovation throughout the Commonwealth, develop a project program for the construction or renovation of court facilities that the Administrative Office of the Courts determines to be most in need of construction or renovation. Based on a needs assessment, the Administrative Office of the Courts shall develop a prioritized list of proposed court facilities projects and submit the list to the Chief Justice for approval and to the Court Facilities Standards Committee for informational purposes only. Upon approval by the Chief Justice, the Administrative Office of the Courts shall submit the prioritized list to the Capital Planning Advisory Board, by April 15 of 2001, in accordance with KRS 7A.120.

The Administrative Office of the Courts shall develop and maintain uniform contracts to be used by local units of government when procuring architectural, construction, financial, or other services relating to court facilities projects authorized by the General Assembly. Each county with a court project authorized by the 2000 General Assembly shall enter into a written memorandum of agreement with the Administrative Office of the Courts. Before the Administrative Office of the Courts submits its next budget request for court projects under KRS 48.050, each local unit of government that is expected to participate in financing a requested court project shall enter into a written memorandum of agreement with the Administrative Office of the Courts. The agreements shall be developed by the Administrative Office of the Courts, and shall specify the rights, duties, and obligations of the local unit of government and the Administrative Office of the Courts relating to the project, and shall be contingent upon the project's authorization by the General Assembly.

No contract, and no modification to any contract, relating to the design, financing, or construction of court facilities projects authorized by the General Assembly shall be executed unless first reviewed and approved by the Administrative Office of the Courts. All court facilities projects, beginning with those authorized by the 2000 General Assembly, shall comply with the Kentucky standards for court facilities to be established by the Chief Justice and the Administrative Office of the Courts.

The use allowance in the judicial branch budget recommendation submitted under KRS 48.100 shall be determined as if bonds will be issued for a term of twenty (20) years at the prevailing market rate, computed from the estimated date that the Court of Justice will occupy the facility. If the market rate for the bonds assumed in the budget recommendation, including that in the recommendation for FY 2001-2002, has increased when the bonds are to be sold, the director of the Administrative Office of the Courts may approve an extension in the bond term, up to a total of twenty-five (25) years, but only as necessary to keep the annual use allowance within the budgeted amount. All bonds issued by any local unit of government for court facilities projects shall be limited to the term approved by the Administrative Office of the Courts.

Local Facilities Fund

Before approving any bond issue for a term exceeding twenty-five (25) years, the director of the Administrative Office of the Courts shall submit a proposal for the extended term to the Interim Joint Committee on Appropriations and Revenue and the Capital Projects and Bond Oversight Committee. The proposal shall include a statement of the necessity for the extended bond term and the impact of the extended term on the project's budgeted scope and authorized annual use allowance. Within thirty (30) days after receiving a proposal to extend a bond term beyond twenty-five (25) years, the Interim Joint Committee on Appropriations and Revenue and the Capital Projects and Bond Oversight Committee shall either approve or disapprove the proposal and shall then promptly notify the director of the Administrative Office of the Courts. If either committee disapproves the proposal, the director of the Administrative Office of the Courts shall take one (1) of the following actions and shall notify the committee of its decision in writing within thirty (30) days:

(a) Disapprove and take no further action on the proposal;
(b) Revise the proposal to comply with the committee's objections; or
(c) Determine to approve and proceed with the proposal over the committee's objection.

The Court of Justice may agree to increase the budgeted scope of a court project or project pool authorized by the General Assembly, and may draw from the local facilities use allowance contingency fund to cover any resulting increase in the budgeted annual use allowance, if and only if:

(a) The appropriate unit of government first submits a proposal for the increase to the Court Facilities Standards Committee, and the Court Facilities Standards Committee approves the increase;
(b) The annual use allowance for the project or project pool, adjusted for the proposed increase in scope, would not exceed the annual use allowance specified for that project or project pool in the multiyear use allowance schedule set out in the judicial branch budget bill or memorandum by more than fifteen percent (15%).

Before the Court of Justice gives final approval to an increase in the budgeted scope of an authorized project or project pool listed in a judicial branch budget bill which would result in an increased use allowance, the director of the Administrative Office of the Courts shall submit a proposal for the increase to the Capital Projects and Bond Oversight Committee at least fourteen (14) days prior to the committee meeting. Within thirty (30) days after receiving a proposal to increase the use allowance, the Capital Projects and Bond Oversight Committee shall either approve or disapprove the proposal and shall then promptly notify the director of the Administrative office of the Courts of its decision. If the Capital Projects and Bond Oversight Committee disapproves the proposal, the director of the Administrative Office of the Courts shall take one (1) of the following actions and shall notify the committee of its decision in writing within thirty (30) days of receiving the committee's notice of disapproval:

(a) Revise the proposal to comply with the committee's objections;
(b) Cancel and take no further action on the proposal; or
(c) Determine to implement the proposal over the committee's objection.

The Administrative Office of the Courts shall report to the Capital Projects and Bond Oversight Committee within thirty (30) days of any action taken by the Court of Justice to approve a scope increase of a project within a pool which would increase the use allowance for that project. The Capital Projects and Bond Oversight Committee shall maintain records of proposals, findings, decisions, and actions taken under this section. When appropriate, the committee shall provide this information to other legislative committees or to the General Assembly. The Administrative Office of the Courts shall provide to the Capital Projects and Bond Oversight Committee, at the committee's January, April, July, and October regular meetings, a status report on the progress of all incomplete court facilities projects.

On August 1 of each year, the Administrative Office of the Courts shall prepare a financial report on the court facility use allowance contingency fund for the fiscal year ending on June 30 of that year. The report shall include, with explanations, allotments, expenditures, encumbrances, and the available balance.

Upon request of the Administrative Office of the Courts, the Department for Local Government shall evaluate the financial condition of any local unit of government selected to participate in a court facilities construction or renovation project, and shall certify to the Administrative Office of the Courts the local unit of government's ability to participate in the project.
